Ernest J Wesolowski
1416 Pasadena Ave.
Omaha, Neb. 68107

Dear Sir:

I am happy to inform you of this verification of your reception.

Your report, as well as other are always welcome at WTKM, as we like to hear about our coverage in distant areas. This also helps us determine that our equipment is operating correctly.

Our transmitter site and tower are located 3 miles south of Hartford in the town of Erin. We are using a Gates BC-500-GY watt transmitter with a BLAW-KNOX 322 ft. self supporting tower which is series excited.

Our studios are located in Hartford. Our studio equipment consists of a Gates Yard Console, stay level AGC amp, and a Solid Statesman limiter. We also have Gates modulation and frequency monitors. We use five tapecaster cart machines and four Roberts tape recorders, and also have 1 magnecorder.

We have recently added WTKM-FM to our station, which is located at our transmitter site also.

Thank you for your letter.

Sincerely,

Richard Feutz
